# PREPARING ALL STUDENTS FOR SUCCESS IN A CHANGING WORLD

## A Message from the North Allegheny School District

Welcome to the 2022-2023 school year! North Allegheny's mission, "Preparing All Students for Success in a Changing World," continues to be the guiding principle in our school buildings each day. There is truly something for everyone at North Allegheny School District.

North Allegheny students benefit from exceptional opportunities to participate in our award-winning academics, activities, athletics, and art programs. In this year's calendar, each month features one of our academic departments. From core subject areas like ELA and Math to electives like Family & Consumer Sciences and Music, our academic program provides significant opportunities for students to engage in rigorous and relevant coursework.

Along with photos from the department, each month has a short overview and a link to our website where you can learn more about each academic department.

Thank you for being an integral part of the North Allegheny School District. Every day is a great day to be a Tiger!

## ABOUT THE COVER

The "Annual Tiger Painting" has been a tradition at NAI since 2007. Sophomore students in Drawing and Painting 3 create a painting that is their own unique expression of our District's mascot, the Tiger. Once complete, the paintings are displayed in Tiger Hall (the main hallway of NAI), with one painting chosen by the 10th grade class to be permanently framed and displayed as the official "class painting."

For many students in class, it is the first time that they create such a large artwork, with each painting being 30" x 30" in size. It is also the first time for many students to stretch and paint their own canvas. Students learn how to plan and execute a large-scale work from start to finish, as well as a variety of painting techniques that help them to achieve their creative goals.

Sophomore Josefina Iruguin's painting was chosen to represent the Class of 2024. Her painting will be the 15th to be permanently framed and displayed in Tiger Hall.

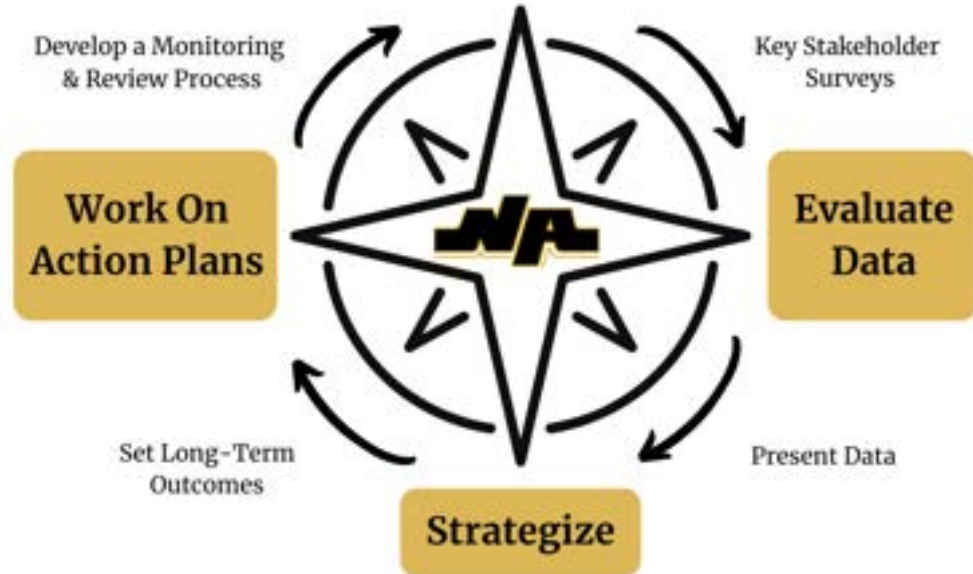

Josefina said, "Creating this 30" x 30" piece was no easy feat. I decided that a realistic tiger was the direction I wanted to go. I began the painting with a sketch utilizing the grid method. Then, I proceeded to make a light and watered down base painting to get the general areas of the painting their general colors. As anticipated, the final layer of the painting was the most challenging part, especially rendering the tiger's fur. The eyes of the tiger were a major make or break point; I must have redone them at least three different times. I am so grateful to have been nominated as the class painting of 2024 and to have had all of my hard work recognized."

A special thank you to all of the parents/guardians, NA staff members, PFA/PTA/PTO groups, and yearbook committees for contributing photos for this year's calendar.

## North Allegheny School District 2022 Strategic Plan

A comprehensive plan to move the District forward

Over the last year and a half, we have spent a great deal of time focusing on the day-to-day and week-to-week while being pulled in many directions. This time has taught us how to look for opportunities in challenging situations. It has also taught us the importance of resilience in the face of obstacles. There is no better time than now to focus our direction toward the future.

Our administration has been creating an ambitious action plan to move the District forward. The Strategic and Comprehensive Plan for the North Allegheny School District will serve as a roadmap for the District's educational and operational priorities for the next decade.

This plan will be unveiled to all NASD families throughout the 2022-2023 school year.

Lily Daugherty & Brianna Painter, 7th graders at IMS, feed trout in a 55-gallon aquarium. For over 15 years, Mr. Shane and his students have raised Brook and Rainbow Trout through the "Trout in the Classroom" project. Students observe the life cycle of trout growing from eggs to alevins to fry to fingerlings. In the spring, the students release the trout into the wild during the annual "Trout Release."

Students in Honors Pre-calculus took on the role of air traffic controllers, determining the flight plan (bearing & flying distance) for the pilots located in the gymnasium. Once the pilots successfully navigated to their destination cities, they worked together as a team to solve problems involving trigonometry. The air traffic controller on the left is junior Ethan Alexander. The pilots on the right are (L to R) juniors Ryan Cooke, Emma Swanson, & Mohit Naveen.

# JANUARY 2023

The NA Mathematics Department believes in an innovative & dynamic mathematics program that encourages students to explore, understand, & apply mathematical concepts both inside & outside of the classroom. At the high school level, NA offers math electives in personal finance, statistics, & computer science. MCK 3rd grade student Conor Handron is hula hooping to support the elementary HPE Jump for the Hills program, which raised \$63,053.31 to help address the needs of people in crisis, hardship, & poverty in Northern Allegheny County.

Ingomar Elementary School HPE teacher Dean Boronyak introduces biking to 4th grader Amy O'Donnell. Through grants & additional funding, our HPE Department was able to allow our elementary students to learn how to ride a bike or master their skills during class.

# FEBRUARY 2023

The mission of the NA Health & Physical Education (HPE) Department is to empower the community to apply the skills & knowledge that contribute to a healthy lifestyle.

(L to R) Hayden Ball (10th grade) & Yuki Qian (9th grade) compete in the technology problem-solving event at the Technology Student Association (TSA) state competition hosted at Seven Springs.

Students in Engineering Design & Development classes presented unique designs & prototypes to a panel of engineering professionals. Here, senior Trey Griswold presents a prototype of a lacrosse retrieval net.

The Technology & Engineering Department is committed to delivering a standards-based curriculum unified by the three systems of biotechnology, information technology, & physical technology. Students develop technological literacy by using a project-based approach focusing on the evolution of technology, the design process, & computational thinking, while analyzing the impacts on society, culture, & the environment. The Hosack Living Museum is a 4th grade tradition in which students read biographies & then bring those people to life. Parents, students, & staff have the opportunity to visit the museum & listen to presentations from each student. Here, this student is portraying Neil Armstrong.

Twelfth grade AP Economics students Nolan Coltery & Jack Hicel take a break at prom to check their stock portfolios as part of their final AP Economics project.

CMS 8th grade U.S. History students planned & recorded short videos to review their favorite part of the curriculum. Abigail Condel, Matt Morrison, & Kaleb Kennedy focused on Lincoln's assassination & the manhunt for John Wilkes Booth.

# ***Preparing All Students for Success in a Changing World***

*Welcome to the Jungle! Students at FES showed how "Franklin Fierce" they were with a Jungle-themed art show! From hanging vines to rainforest sounds, students & their families enjoyed a gallery walk deep in the jungle to admire the incredible work of our artists.*

*These FES 1st graders are posing in front of a rainforest paper mural created for the art show. All of our elementary schools host an art show each school year.*
